

# FIRE CLIMATE INTERACTIONS: WHAT DOES THE FUTURE LOOK LIKE FOR OUR BIODIVERSITY?

Image courtesy of Joe Fontaine

Join Murdoch University Lecturer, Joe Fontaine for an interactive presentation about fire disturbance, its interaction with climate change, and how bushfire and climate is impacting natural bushland and biodiversity.

Joe's research aims to generate useful and robust knowledge that helps inform land managers and the community. Originally hailing from the western USA, Joe has been in WA for over 10 years and has fallen in love with Australian plants and animals.

**Wednesday, 21 April 2021, 6:30pm-8:30pm**

**City of Armadale Function Room, 7 Orchard Ave, Armadale**
